NOTE FOR: DCI

RE: Senator Nunn Visit Here Tomorrow

-In addition to the four subjects which he asked to be briefed on [redacted]

the Senator will see Ambassador Ellis (U.S. Rep/ Standing Consult Committee on Arms Control), who will also be in the building tomorrow.

-The Senator will leave Saturday and join up in Moscow Sunday with Senator Byrd and his party. The group will meet with Gorbachev.

-You are, of course, aware of Senator Nunn's particular concern about security and leaks and his recent hearings on industrial security in the U.S.--including having Boyce as a witness.

-As a member of the Armed Services Committee, he is increasingly interested in the growing DoD clandestine role and their/our special operations.
